Network Middle East Vendor Profile — LogRhythm

Dubai - Apr 01, 2018: **What is your company's history-including Middle East history?**

[LogRhythm](http://www.tcfnewswire.net/en/company/logrhythm) is a security intelligence company that was founded in 2003 to address the unmet and growing need for a comprehensive log and event management solution. Today, LogRhythm's focus is NextGen SIEM that includes UEBA; we empower organisations around the world to rapidly detect, respond to and investigate damaging cyberthreats..

LogRhythm is headquartered in Boulder, Colorado, with operations in North and South America, Europe and the Asia-Pacific region. We entered the Middle East and Africa market in 2015 and have been growing our footprint in the region ever since.

Over the last three years, we have extended our range of operations by signing on several value-added distributors. To keep pace with this momentum, and to maximise customer satisfaction, we have also established several regional teams to provide our customers with technical support.

We've earned many accolades over the years, including our placement in the [Leaders Quadrant of Gartner's SIEM Magic Quadrant](http://www.tcfnewswire.net/en/company/logrhythm/news-stories/logrhythm-named-a-leader-in-2017-gartner-magic-quadrant-for-siem) for five consecutive years
