SonicWall PEAK17 Partner Event

Dubai - Nov 22, 2017:

[SonicWall](http://www.tcfnewswire.net/en/company/sonicwall) organizes an annual Peak event for its partners and distributors to participate to get updated on the coming year's plans, product roadmap, regional support updates etc.

Expressing his delight at having concluded the event successfully, [Shanawaz Sheikh](http://www.tcfnewswire.net/en/company/sonicwall/executive-biographies/shahnawaz-sheikh), Sales and Channel Director at SonicWall told Channel Post, "We had an overwhelming response from our partners and prospects, and witnessed a good turnout of 120+ individuals with sales and pre-sales titles. The event was well attended because partners understand the value of being connected with SonicWall. The success of this event was evident from the extended interaction that attendees had through questions and feedbacks which reflects that our partners are able to gain valuable knowledge from the event that they can later apply for continued growth of their SonicWall business."
